Professional Summary

Seeking a learning, challenging & progressive career in a reputed company which could provide me with sufficient opportunities to apply my academic knowledge for achieving organizational goal & my personal enrichment. An enthusiastic fresher with highly motivated and leadership skills pursuing master degree in Master of Computer Application.

Skills

Technical Skills:	Java, C/C++, JavaScript, SQL, HTML
Soft Skills:	Problem Solving, Team Management, Time Management, Good Listener

Project Work

Hotel Room Registration System

Jan 2024 – May 2024

Offline System (Java Based)

The offline system is designed for hotels and lodges to assist them. This project addresses the issues in the existing system, where they had to keep a list of customers in notebooks, which would get damaged over time. For this project I preferred Java as the programming language and NetBeans IDE as the development tool.

E-Book Store Management System

Jun 2019 - May 2020

Online System (Asp.Net Based)

The project is created using C#, ASP.NET, and SQL Database. The project is developed for readers, publishers, and administrators. It is inspired by the GIGL website, which at that time did not provide a publisher end; all files were uploaded to the website by the administrators. My project gives help to publishers.

Education

Finolex Academy of Management and Technology, Ratnagiri

Aug 2023 – Present

Pursuing Master of Computer Application

Vijayalakshmi Vishwanath Dalvie Model College of Talere, Sindhudurg
